XDR ADOPTION

Extend visibility. Accelerate response. Maximize protection across identities, endpoints, email, apps and cloud.

Gain visibility. Reduce risk. Strengthen defense.

CUSTOMER PROBLEM

Organizations deploy Defender technologies but often lack consistent end-to-end tuned policies, unified incident response and measurable detection coverage.

The result: security gaps, alert fatigue, slow response and unrealized Microsoft Defender value.

HOW INNOVATE HELPS

INNOVATE evaluates XDR maturity across endpoints, identities, email, cloud apps, incidents, automated investigation, hunting and response processes.

We use Microsoft Defender XDR, Defender for Endpoint, Defender for Identity, Defender for Office 365, Defender for Cloud Apps, Entra ID Protection and Sentinel integration to identify gaps and optimize coverage.

- Visibility into XDR coverage and operational gaps
- Improved detection, triage and response readiness
- Roadmap to maximize Microsoft Defender value

YOUR OUTCOME

A stronger and more efficient security operation with measurable risk reduction and unified protection.

- **Stronger threat protection across your environment**
- **Higher detection coverage and response speed**
- **Optimized SOC performance and reduced risk**

XDR ADOPTION
MATURITY ASSESSMENT

Measure your XDR maturity and uncover the gaps that prevent Microsoft Defender XDR from delivering full protection.

ASSESSMENT FOCUS

- Security Posture & Onboarding
- Detection Coverage
- Policy & Configuration Review
- Incidents & Response Processes
- Automation & Investigations
- Advanced Hunting
- Data & Telemetry Integration
- Governance & Operating Model

YOU GET

- XDR Maturity Score
- Coverage Analysis
- Gap Analysis
- Risk Prioritization
- Recommendations
- Phased Roadmap
- Executive Presentation

XDR MATURITY SCORE

54%

Developing

Clear visibility of gaps and opportunities to strengthen your XDR.

IDEAL FOR

Organizations looking to understand their current XDR maturity and build a data-driven improvement roadmap.

VS

XDR ADOPTION
ADOPTION ACCELERATION

Turn Microsoft Defender XDR into an operational capability with tuned policies, playbooks and analyst workflows.

FOCUS AREAS

- Onboarding & Deployment
- Security Baselines & Hardening
- Alert Tuning & Noise Reduction
- Incident Queue Optimization
- Automated Investigation & Response
- Advanced Hunting Enablement
- Playbooks & Response Actions
- SOC Workflows & Operations

YOU GET

- Implementation Plan
- Tuned Policies & Rules
- Optimized Incidents
- Automation & Response Actions
- Hunting Queries & Use Cases
- Runbooks & Playbooks
- Handover to SOC / MSS

ADOPTION PROGRESS

78%

Accelerated

Operational XDR with measurable improvements in detection and response.

IDEAL FOR

Organizations that have XDR tools deployed and need to tune, automate and operationalize for maximum impact.

XDR ADOPTION JOURNEY

ASSESS
Evaluate posture and coverage

→

ONBOARD
Ingest data and increase visibility

→

TUNE
Optimize policies and detections

→

AUTOMATE
Investigate and respond with automation

→

HUNT
Proactively find threats

→

MEASURE
Track KPIs and improve

→

EVOLVE
Continuously adapt and strengthen

WHAT YOU RECEIVE

- Executive Assessment Report
- XDR Maturity Scorecard
- Coverage & Risk Heatmap
- Gap Analysis & Recommendations
- Tuned Policies & Rule Review
- Playbooks & Runbooks
- Roadmap & Action Plan
- KPI Dashboard & Evaluation
